

Spirit Air Business Broadband

The Service

Service Description	<p>Spirit Air provides a bridged connection to the Spirit Optic Fibre network, overcoming challenges in the 'last mile' for access to enterprise grade bandwidth. Ethernet provides a Gold Standard for high-speed Internet and commercial network services. Optical Fibre to Rooftop high-gain systems deployed by Spirit, overcomes the distance and bandwidth obstacles of limited ageing copper services and infrastructure shortfalls in connecting physical fibre underground throughout Australia.</p> <p>Because Ethernet is delivered as a symmetrical service, it provides the equal upload and download speeds increasingly important to business and vital for effective Cloud services access.</p>
Product Features	<ul style="list-style-type: none"> ▶ Unmetered data ▶ Symmetric speeds (50-100Mbps, depending on chosen plan) ▶ Static IP ▶ Single or Multi VLAN, capable to support multiple products – ie. Data + Voice (SIP or Hosted PBX) ▶ Ethernet hand-off to customer premises equipment ▶ Standard business SLA
Minimum Contract Term	24 months (36 months also available)
Equipment Required	You will require an Ethernet router at your premises. If you do not already have one, Spirit can provide a suitable device at additional cost.
Service Availability	The service is not available in all areas or to all customers.
Key Details	This service provides symmetrical speeds of up to 100Mbps. The nominated network access speed profile is delivered to the active Ethernet port. Local network and Wi-fi performance subject to end-user equipment. The actual speeds you experience depend on many factors, including your equipment, the number of end-users, the source of the data and the applications in use.
Install	<p>Standard install provides the service to the hand off point of demarcation (Active Ethernet Port). You must install a compatible router or firewall and any cabling required after the hand off point</p> <p>Installation is offered on the basis of available information relating to the installation location and strictly subject to a site survey. Spirit reserves the right not to progress an installation if site conditions are unsatisfactory or subject to third party commercial terms.</p> <p>Subject to local conditions for new network installations, a Fee for Service (FFS) arising from local infrastructure works may apply, any fee resulting shall be referred to the nominated end-customer for review and acceptance. If the FFS charge is not accepted within 14 calendar days and Spirit is advised of same in writing, the end customer may cancel the applicable service without penalty* prior to installation.</p> <ul style="list-style-type: none"> ▶ Fibre services delivered on Telstra infrastructure may incur a charge of \$1550.00 ex. GST each, in the event of an order not proceeding by the undersigned. <p>The undersigned acknowledges that the agreement for services includes the installation of carrier equipment within the nominated premises and accepts the requirements of the LAAN installation notice.</p>

	Available at https://spirit.com.au/laan-notice NOTE: This may also require notification to premises owner/landlord.
Bundling with other Spirit products	A range of Bundling options is available with this service, please enquire with us.

Information About the Pricing (All pricing ex. GST)

Installation and plan pricing is affected by and depends on data infrastructure requirements, and is provided based on customer's location and data services available to premises.

Minimum Cost over the Contract Term: Minimum Cost is the combination of establishment/ installation charges and total monthly charges multiplied by the Contracted Term.
